

# User Manual

Team CountToInfinity

## Android App

1. Just open the app and you'll see your friends, online users and all users on the network.
2. You can send messages to your friends whether they are online/offline.
3. You can send a friend request to other people who are not your friends yet.
4. You can even block a user if he's spamming you or otherwise.
5. You're ready to go!

## Web App

1. Login or register on the web app.
2. You will see online friends who you will be able to chat with.
